High on Kennels has found the best way to teach a dog to avoid rattlesnakes is to use live rattlesnake specimens. The rattlesnakes have been neutralized, so that they cannot bite.

Your dog will be led around the course at the HSSBV and allowed to encounter the rattlesnakes at which point the dog is stimulated using an electronic collar.

The process is repeated until the trainer is satisfied your dog would avoid rattlesnakes (rattlesnakes have a distinctive odor that a dog can discern from other snakes).

**High on Kennels recommends annual Rattlesnake Avoidance Training.
Some dogs seem to forget over a period of time!**
